An amazing feature that no other Play Store app offers. One aspect of the app that I really a ppreciate is tht delivery is 1 0 0 % free & comes at no additional cost.

Analyzing the items, would be my pick. Even if you are not a believer of apps, this novel app is very e asy to use with all my family members. Team, best of luck and blessings

Review Content: Thank you to the design team for such a terrific apps that serves milk a must for every Indian family. The app also includes chhach & dahi which I have tried & find to be quite fresh & tasty. I always place my orders 1 day in advance of bedtime & everything is sent the next morning at 7:00 a m which is an early arriv al. I used to always pick the "Buy once" option till last month but now I subscribe to the milk & coconut water because of its high quality. This app is amazing & all must try this.

Review Content: A premier delivery service made by the app This app is great as it often provides high quality milk & greens. I began using this app for only milk, but now as I have been using it for 4 weeks for veggies, fruits, milk, & eggs too, I can notice a gap among what I got from local shops five months ago & all I do from this app. These are also stuff to keep fresh for up to a week. I typically ask an early delivery that will be on time since I admire the overall crew & love to give them full marks 5 *

The guy always come on time which I had opt for in the app. The milk is very pure not watery like local doodhwala shop & I tried coconut water also The quantity & quality of all fruit & vegetable is good. The customer support team is co operative & response very fast to any single or small query I love the app as it has very easy user interface for 1 st time user CD

Review Content: I am a coconut subscriber since last one week. I have received only once 2 glass of water otherwise it's not even a glass of water in coconut when drained. There price is huge. I think you can get same coconut in INR 50 with a little walk to street vendors. Not recommended from my side for coconut delivery.

Review Content: Please update your app to not accept order in case of insufficient or negative balance and stop harassing the customer by saying the amount will be deducted from delivery boy's salary. There's no fault of delivery boy when you are accepting orders even in case of negative balance, then why do you want to punish them by deducting the amount from their salary.

Review Content: The app has a fraudulent VIP membership program that disrespects loyalty, 1. The tenure of the
plan doesn't sync up with vacation. 2. They have a cap on the benefit, but falsely calculate it based on the MR
P. Say, a pack of milk at 45 MRP is retailed at 41. For 199 VIP program, it is priced at 37 and the benefit is
calculated as 8. As it has a cap of 600 in 30 days run. Actual benefit being 4 per each pack, it can give a max
saving of just 300. Callously designed plan. The milk quality is good.

Review Content: Earlier, their service is good. But not it's worst. I ordered milk packets and didn't get. This happened to me twice. They simply send a WhatsApp message that we regret the inconvenience caused. Due to unforeseen circumstances, we couldn't deliver the product today.

Review Content: Not satisfactory at all. Ordered coconut to see if ads shown on TV are true, firstly the coconut top was not cut properly , wasted 10 mins in that , secondly the quantity was just half glass and they claim something else in ad. No where it's mentioned that they deliver only at homes and not at office address . Coconut in market would cost cheaper than this.

Review Content: Money is disappearing without any clear idea why. Accounting sucks in this app. We have no idea
why money is deducted from our balance. And the invoices are not sent correctly. When i look up a day's calenda
r, it shows items that i didn't even order. Ordering itself is horrible. You have to go through multiple passes
to order items you want. Overall it needs to improve way way way more to be even comfortable to use.

Review Content: Beware of following points before taking membership: 1) their membership is a big scam, 30% discount is just 20% on what they offer to normal customers and if you dont buy lot of products 30% membership plan is waste 2) for premium customers they don't offer vacation option.. so let's say if you go out of station for a week, you still pay them membership charge for them 3) customer care is useless, they won't solve complaint or close issues on time. So if you want peace and save money avoid them

I would be in big trouble if I have not opt for C D in lock down time & now I m regular user since then. Will recommend to all my frds & near 1 to opt for the best app

Never delivered all the items (vegetable and fruit) and charges packing fee as their own criteria... If as a coustomer, you notice and complaint then you will get your refund otherwise they will charge extra money...all the offers given by this app are smartly calculative....most cunning app....will not recommend to anyone...go for other Apps..They r atleast better.

Some areas they are giving 450ml and at cost of 31.5rupees (30%off VIP membership) but some areas giving 500ml pack with 32.5rupees(30% off VIP membership). Review Content: CD's pricing strategy is too poor, a tender coconut listed price is 64 but there is no guarante e of water quantity. Wonder this co was founded by tier 1 institute alumni. Then, they have VIP membership whic h is a trap. Once you go in, it would allure you for spending more. A transparent and honest pricing and a reas onable quality of product would do the job rather than aggressive ads and trap-able membership scheme. This app based grocery is an overhead in life to follow up w/ c care etc.

They give you VIP membership for 30 days Or 90 days, but expire the member ship earlier to that period by limiting customer in benefit clause (that one can not get benefit after certain amount in VIP membership). There are so many big companies/big brands who sell their membership for a period, w ith not limiting with benefit availed. Not customer centric.

Review Content: This company has become miser and greedy. They have multiple tactics to grab more money from cu stomers. Firstly their products are way too expensive. Due to this they use to give some cashback on the wallet recharge previously which they stopped from past sometime. Then they came up with some VIP membership at a part icular price which they increased within 1 month. What was even worse was that they reduced the product quantit y with same packaging without informing the customers.

Review Content: They deliver late and they expect you to keep your kids hungry till they deliver the milk. No option to cancel the order in case of delayed delivery. Their delivery person forcefully delivers the milk even when you requested for cancellation. So please plan your weekends outing as per their delivery schedule. Customer care will not help, they will just give you apologise

I recommend, Please keep track of your money and do calculations for each order because smartly they will debit your account at MRP. Also for trial purpose please try and take your money back to your account then only you will realise true Plight of Country Delight. Wish you luck.

Review Content: The prices of all the products were more than usual market rates! Who pays ₹60 for tender coconut water? In order to survive CD has to offer something good at the same market rates. My suggestion would be instead of spending money on advertisements the investors money can be best utilized by providing discounts on products. This is the way you can attract customers.

Review Content: UPDATE: They refunded me the cost for one coconut. Customer service is pro-active, which is good. Would recommend items other than the coconut water - still feel it is on the over priced side, not commensurate to the value. . Terrible experience - they charge INR 65 for one coconut (market price is 40-50), but they say quantity will be between 270 and 300ml. However, the real quantity of the delivered coconut water was less than 150ml. No point in paying such high prices for sub-par products.

Review Content: Very disappointed with the service. My husband started using this app for milk purchase. He changed his number so I started using with my phone number. He ordered 500ml milk for 36rs. When I check my account I get 450ml for 36rs. Same location but two different packing and different services. Looting small it won't count isn't it? It's better to buy with local vendor than with these cheaters. Be aware they are going to be big looters.

Review Content: Except for the product, especially dairy item, everything is below average. App is too confusing to use. You can't pay as you order. You've to first fill their wallet (min ₹500) and then pay for the order via wallet balance. Price is almost 1.5x, if not double, of that in local market for same quality of product. I wonder how this is even an app - an app of literally 4 products (milk, bread, coconut & ghee). And the so-called discounted price for VIP members is a myth.

Fruits delivered are rotten, eggs are picked from regular shops and sold has high pr otein eggs and are all expensive. Please do not waste your hard earned money on their services. However one of executive did accepted over call that the quality has degra ded and they are sending team to Bangalore to check on same. When asked for compensation for paying higher than the quality, did not get any response. They are now into marketing by celebrities & making brand value, however they have forgotten the true brand value is by customer satisfaction.

Review Content: Confusing Terms & Conditions, Unprofessional Customer Care behaviour. Cancelled the order on il logical grounds that they are getting various orders from the same location (Building). They even don't have co mmon sense that in one building there are many flats, room sets. If 100 people are residing in one building, by the country delight logic, they are from same family. notifying customer care number of times). The fruits weigh something and they charge 2x weight. It takes hours
of battling to get refund. Today their senior executive Rajat actually said I am lying that there were previous

Custome has not partially canc elled rather than vegetables were out of stock. Again the issue is there for fruits and vegetables billing . On placing the order, It was showing 100 Rs, but they billed 169 Rs that too after delivery. Seems they are not at all worried about customers.

Review Content: No prompt deliveries. Also in app there should be a order tab to check the current status of order for delivery. As of now it just shows these will deliver today and even a single wrong click either change your delivery qty/day or may cancel your order. I gave it a try but not worthy at all. Why should someone wait for next day delivery for milk products which he can easily get in few minutes from local dailry and shops ?. Also Amul and Mother Dairy products are far far better than their prods.

But they are sending coconuts which are available at road side and not fresh one. It contains hardly lessthan 150 ml of water. Vegetables and fruits of all low grade quality . We can get good and heigine products for the price lessthan here in markets and surrounding shops. It's waste of money .as this app became somewhat famous now they started giving low quality item

Now wait for next day after order and get nothing. And on same address another delivery man of another time slot gives order. If we Contact customer care they don't even have manners how to talk and will say same : we will not deliver in your area And something if any delivery man come he will only come till main road and will ask you to come on road .

There is no communication from their side that some products were not available. They just dump whatever is available and leave without informing that the order is not complete ; still they take full packing charges (Rs 19) for INCOMPLETE DELIVERY. First of all they take prime membership charges, then packing charges for INCOMPLETE DELIVERY.

Instead we have to open it by ourselves. After hours of hardwork when you finally do you only get 100-150ml water. Also removing malai without proper equipment is near impossible. Believe me, it is just easier to go down and have it in 10 mins rather than wasting 60 at your home.

While adding discount they should consider actual selling price not MRP.Ex Buffalo milk is actual price is ₹39 but discount is applied on MRP ₹45. because they have Cap on discounted amount, we are actually cheated. And twist is if your Discounted amount is over I paid ₹45 for packet instead of 39(actual selling price). Marketing with superstars will not be sustain business without customer acceptance

Assume I buy 4 packs of Buffalo milk and 2 Coconut everyday, I pay Rs: 260/- per day (39 for milk pack and 52 for coconut). As an VIP I pay Rs: 207/- (31.5 for milk pack and 40.5 for coconut). The trick here ie 30% discount on MRP, where the MRP of same bundle is Rs: 298/-(45 for milk pack and 58 for coconut). Hence the benefit as NON VIP

customer is Rs: 1,629/- (Including subscription charge of Rs: 549/-).

Review Content: Worst vip subscription plans with monthly rate 549-30% 199-20% and comedy thing is they should calculate what price they are delivering. Suppose on buffalo MRF is 45 delivering to me on 39rs. Vip discounts are on MRP price.Country delight team dont have minimum sense on the plans like consider we have taken 549 plans we get 30%(12rs) montly we can save 360 and what did customer gain loss only. Worst Management with no common sense

Review Content: I adore this app. It is EXACTLY what I was looking for. I love the use of the pantry section where I can keep track of what I normally have around the house, with an easy transfer right into a shopping list when I start to run low. Plus, my shopping list stays organized in my personalized categories.

Review Content: Just switched from an old flip phone to an android last year. I learned how to use this app easily and love it. I can keep different lists running for different stores. Font size is easy to read and as I shop items can be removed from the list. I always have my phone with me so as I think of stuff to buy I add to the list. Scraps of paper are gone.

Review Content: This is the best grocery app for my needs that I can find so far. The only features I wish it had are pictures of the items, from a database or search online, collapsible categories, and maybe an option to say 'out of' instead of just 'low' or 'full' in the pantry section, but maybe that would be too many buttons. I love the clean look of the app.

Review Content: A great app for creating multiple shopping lists. When you enter a grocery item, they are automatically sorted into categories. For example, if you enter "flour" it will appear under "Baking". You then check off items as you buy them. Also great for making lists for a camping or hiking trip.

Review Content: Excellent app. It allows my whole family to add grocery items, it has a notes slot as well as easy to use quantity, it auto categorizes items, and sorts by category for easy shopping. My only complaint is that it doesn't show who posted the item, so if someone adds shampoo, they have to note who they ate, so we get the right one. But otherwise, it is great.

I generally prefer to use a paper shopping list, but OOM allows me to organize my list in my preferred order and categories so it meets one of my main requirements. Then as I run out of items, I add them to the appropriate list. You can add manually or scan mist bar codes. I
keep frequently purchased items on the list all the time and just move them into the shopping list as I need th

Review Content: Good app I've been using for over a year. Love having multiple lists for different stores. I do
wish that every time I manually write in an item it doesn't add to the bank of items below...I end up with mult

add items to my grocery list simultaneously.

it can be synced among all of our household members so that if someone sees that we are about to run out of som

Review Content: Love this app. At first I only guesstimate prices, but now I can just add from the history sect

Review Content: [Help staff replied quickly to my problem below. I was mistaken. It is possible to do this usin
g the manage categories feature. Updating my rating to 5 stars now!] Great app but has one flaw - for some reas
on when you create categories it doesn't list them alphabetically. I create a category for each aisle in the st
ore (Aisle 1, Aisle 2, etc). Then I enter the foods I buy in the aisle where they're found. If the app listed t
he categories alphabetically, my shopping list would be laid out perfectly and I could just walk through the st
ore one time getting everything I need. It's a minor problem but frustrating. Otherwise I'd give 5 stars.

Review Content: This app is great for building a shared grocery list. It doesn't update instantly for everyone, but that's no big deal. My star reduction [came] from an anomaly in the app. Frequently, when I try to swipe up or down to scroll through my list, the app instead picks up one of my items and tries to relocate it as if I've grabbed the double bars on the side of the item. However, this seems to have been fixed now, so back to 5 stars . Thanks team!

Review Content: The app itself is very easy to use, I use it for almost all of my lists. The widgets as well ar e fantastic! It has so many options to put directly on your screen. I love having the list always there, so if I suddenly remember something I need to get, it's literally one tap away. Having it on the screen is also super good for reminders, since I see it as soon as I unlock my phone. I've been getting a whole lot more done, simpl y because I can see my list to remind me to do things!

I especially like that it automatically sorts your list into categories, which you can add to if there is a category you need that isn't there. I also love that if you wish, you can add the price of each item as well as sales tax which helps keep up with what you're spending in the store. Simple & efficient app that does what it needs to & does it well

Review Content: I have been using this app for a long time now, over a year I'm sure, and I love it, it is one of my can't live without apps. I love that I can track the cost of my groceries as I go and the ability to scan something into my list is great as well. I've also used the multiple lists to track grocery lists for special e vents like parties or dinners as well as track other things I need to get at the store. My only issue is when I downloaded it on my new phone I get a lot of ads for items.

Review Content: Very useful app. Use it all the time. The sync feature is really convenient in a multi-person h ousehold. And since you almost always have your phone at hand, you can easily add items as you think of them, i nstead of having to try and remember to write them on a list stuck to your fridge whenever you're in your kitch en. AND they "magically" appear on the list of the next person going to the grocery.

Review Content: I got this app so that my boyfriend and I could keep a running list of things we needed from th e store. Now I use it every shopping trip. It organizes my groceries into categories that really help cut down the amount of time I spend at the store. It's also great for sharing lists with people that dont have the app. There is an option to share your list in a text. I like that the list sent this way is just text, not a pdf so even if someone doesn't have a data plan they can still see it.

Review Content: This is an excellent app for creating your grocery lists. I really wish it would add the option to list item prices at different stores. For example, I grocery shop at two different stores, and having the pr ice of milk listed for each store would be incredibly welcome. Malay coconut is bad, water is only 160ml not 250 ml , curd was excellent , milk was good but when we prepare curd from their milk there is a layer of water on top of curd. If anyone is doing daily subscription then cost will inflate straight by 12% No other such service like Fraazo, Blinkit, BBDaily has such huge packaging charges Basis discussion I a m re-evaluating my feedback. While ordering i realised Min order value (non-dairy which also i identified becoz inspite of adding coconut it kept charging me Min.order charge of 25/+12/- per pr oduct packaging charge) has to be 99/-so I added more product. But they cancelled items(out of stock) charged m e 120 for 58 rs. No option to get help. Money stuck!! Disgusted...

Review Content: The App is good to use only for a week. They unnecessarily put high prices on goods and tempts user by asking to take VIP membership for discounts. VIP membership is a mean to loot people hard earned money, VIP membership cost RS 1599 for 90 days and that too with a cap on maximum discounts one can avail. I would rat her go to local market and buy fruits and vegetables from street vendors and support them than Wasting money on buying VIP membership and paying more.

Everytime there is packaging charge of something. I don't wanna pay that. And there is no 1 kg and half kg. Its either 450gms. Or 900gms. And when you order 900gms they ll give 1 kg and will charge you for that 100gms. Why are you puting that extra 100gms when I didn't ask f or it ? Country delight is not being transparent here.

Review Content: I love this app. Easy to use and share with family members. Whoever goes to the store always has the list. One problem-it tends to drop items on your list from their advertisements once in a while. Can't figure out how to make it stop. A little inconvenient when a family member has to call to ask you "what the heck is that in the cart". I just check it often.
Review Content Score: 5
Review Content: I'm upgrading my review from 3 stars to 5 stars because apparently the developer figured out my scrolling problem and has fixed it. I also figured out a way to group my items by aisles and now I'm a happy camper! I've tried several other grocery and to-do list apps but none suited my particular list needs as well as Country Delight.

Review Content: You won't regret it! I honestly love this app and have been using it for quiet a while. I use it to keep track of little items I need at the end of the week. Update 1/11/22 I have been experiencing alot of lagging when using the app including but not limi ted to adding items, moving items, and editing items. Review Content: Wonderful app for families. We use it for weekly shopping lists and have for years. I love that you can add photos of the products and categorize them. I also love how easy it is to move an item from one list to another. I just wish it had a "Location" line so I could add the aisle or store area location for frequently chosen items. It would definitely help when I have to send the hubby or teenagers to the store for me. And it is wonderful to be able to use Alexa to add things to the lists.

Review Content: Been using it for years, since the BlackBerry app. Still used daily for groceries, hardware, camplist, to-do list, prayer list, christmas, etc. I have tried others but keep coming back. My wish is for better printing options and better import/export from other apps. oh, and i preferred the old app graphic with the orange slice, it was more distinct.

Review Content: Best grocery app around! Keeps track of past food items on list, can transfer items to other lists, and stays open the entire time you are shopping!! I love that I can add my own grocery store chains and also add as many new food and nonfood categories that I need! Keeps ALL your lists in one handy location. I highly recommend this app!

Review Content: Perfect app for the whole family (Instantly syncs all of our devices) to keep track of things needed or want and always accurate to keep organized with all devices, likewise, it is compatible with our Google home. With Google home it allows us to makes hands free adding to the list easy and no excuses as for not adding to the list and not forgetting to add later when hands are full or a device is not readily available. Thanks for a great app! Our family has used this app for well over two years.

The immediate response to my problem from Our Groceries was that I had my phone in dark mode. I did not realize this and corrected it immediately. Now Our Groceries works the way I want it to. Thank you so much.

Review Content: I rarely rate apps, but this one is so good I just have to spread the word. We love this app! My wife uses an iPhone; I use a Samsung; and we both have PCs and iPads. We love how this list updates all devices in real time, regardless of operating system. We use it for more than groceries, including suggested books and TV shows, packing lists, and to do items. While the free version works very well, we were glad that we upgraded to the paid version, as it is even more robust and has no ads.

Review Content: It's one of the tools that keeps my life organized. It's a list app, not just for grocery shopping. I freaking love this thing. Shared lists between the whole family, so anyone in the house can add food to the shopping list from their device and it populates to all of our devices. I set up one list with the aisles in our grocery store so we don't have to wander trying to remember where stuff is. Now when you add a food to the list it populates into the correct aisle in our store. I have a list of our concert schedule, when home repairs were done, things that need to be done, etc. My slightly OCD brain loves this app!

But their customer service sucks. The agent was pathetic. She had no clue about what i was asking. Made false promises. Very bad first experience. Wouldn't be using them again. They make you order things under false pretense and then do not provide the service at the same amount.

When we used it for the first two days the quality and size of the coconut was also big. But then suddenly for repeat users it has been on decrease ever since. It's just plain simple horrible. Customer care chat doesn't work either. I want my wallet balance to be reverted back into my back account.

Review Content: The premium version has a lot of functionality and is one of the few apps where you can add to photos. Unfortunately there is no photo bank so it is very time consuming to get started with pics. However, I

find it's missing many helpful features I expected. You have limited options to arrange your store list, there is no option to just view your starred (most common) items, and you can only arrange aisles overall--you can't customize it per store, which makes the feature less useful.

Review Content: Perfect Shopping List App - it is not pretty, shiny, fancy, but it doesn't need to be. Add different stores, each with its own item list. Cross off items as you get them to remove the item from the active list. The items that are crossed off do not have to be reentered, just click again to add items back to the active list. Review Content: My only complaint is that every time I accidentally touch an item on my list the app automatically moves it to the "crossed off" list. Other than that, the app extremely simple, which I wanted. Once an item is categorized, it stays that way, even after crossing it off (not deleting). I believe fixing the touchiness would result in an annoying delete prompt every time you want to check something off. So, 5 stars for a realistically good app. 😊

Review Content: I'm from a rural background myself, and at home we have been having cows all through. Finding unadulterated cow milk is almost impossible here in Mumbai. And, I have been paying double the price for a big cow milk brand for my 4 year old kid, still I was never happy. Husband ordered it... After having my first sip, it reminded me of my own cow milk back home. Stopped that costly brand since then, and immediately switched to country delight. I still can't believe that finally we have the real cow milk with its real taste in Mumbai. Thank God!

Review Content: I was looking for a good grocery list app. Wunderlist is good for many lists, but this is so much easier for grocery lists. I've organized the categories by the aisles in my grocery store. It remembers the categories for food items I've bought before. I can keep a running list of things that I don't want to run out of. This is so easy and makes shopping so much easier and quicker.

Review Content: I have tried 5 or 6 different apps for shopping, without a doubt, this has been the best by FAR, FAR, FAR And Away. I love the fact that I can decide the categories and the order in which they appear. So wh

Review Content: I absolutely love this App! Probably the best shopping list app I've ever used! Let's create re
cipes and can add the ingredients directly to your lists. It's so nice seeing all my recipes in one place!!! Yo
u can even put the cooking instructions in the recipe notes so you don't have to bounce between multiple things
. You can even take pictures of the items you add to the list so you can always get what you want. Much better
than Alexa or any grocery store app I used in the past.

Review Content: great list. I like the categories. I know there's a short press or long press choice for crossi

cause you touched it and didn't see which one it was, it's really hard to find it if you have a long list of cr

Review Content: Been using this for years on both ios and android (yes the lists are shared) and by far the best. I eventually decided to pay for the upgrades, and it was worth it. The wife and I sync not only groceries, but a vacation packing list as well. it can handle lots of different grocery lists, and for some places I use the picture function to scan coupons ahead of time. We love this app.

Review Content: I used several other apps before I tried this one. This one is the most intuitive. Aside being able to use it across multiple devices simultaneously, the main thing I wanted was to be able to have items I put in be saved for future lists. The other apps I've used would keep a database of my inputs and not be very intuitive; or they'd be really intuitive but not keep a running database. "Our Groceries" does both very well. Being eligible for the Google Play Family Library doesn't hurt either.
Review Content Score: 5
Review Content: Great app. I'm able to share the list and update with my wife instantly. We've used it for nearly a year now and it's been awesome. Adding pictures to the items helps a lot. The only thing we wished it had was the ability to add notes to individual items. We greatly miss this feature. We had another list app that had this feature. For example, My wife would make notes on the item if needed to buy an alternate one .
Review Content Score: 5
Review Content: This is an outstanding, customizable app that offers useful features. It is so handy to be able to add items to whichever list I need via Alexa - especially when I am cooking, my hands are full, and I don't want to forget anything. Shopping with a list helps keep spending within budget as well. The paid premium upgrade is well-worth it, and includes more functionality than just customizable color themes. Thank you, developers, for designing a truly useful app.
Review Content Score: 5
Review Content: I'm new to this app so I'm giving you an initial comment about it. It's hard to get used to telling Alexa to open the app before adding an item to my shopping list but, I'm getting there. So far, I'm pretty impressed. It works great for me and my wife because I do the cooking and she does the shopping. After telling Alexa to add something, it syncs with both our phones. Before, she often forgot the written list and if I was home I would take a picture and text it to her. If I wasn't, oh well.
Review Content Score: 5
Review Content: I love this app. It's very helpful when you have two people using it and trying to coordinate family dinners or get-togethers where multiple people are shopping. It's also very helpful in general for just one person to keep track of lists for multiple stores. I do wish that we had the ability to remove peoples (or devices) access if they were once signed into my account. Not something I'd dock a star for, just maybe something that could be added on an update later.
Review Content Score: 5
Review Content: Too expensive, they keep raising prices without prior notification, if you have subscribed then they will drain your wallet like anything. I started my subscriy with rs 56 a ltr and now they charge 68. Pathetic. I have stopped and switched to another service provider.

Review Content: Great shopping list app! Especially if there is more than one using it. If you create an account and both are logged into the account, you can both see the same list at the same time, so if you realize you forgot something and the other person is at the store, you can add it to your list and it will show on the other list within seconds. Also nice to be able to scan an item and add it to the master list. I definitely bought the key to support the dev!
Review Content Score: 5
Review Content: Excellent tool for sharing with household members. Different stores with different lists is not even the best part; once you check off a purchase, the app remembers so it's very easy to add again when you need more. Can be personalized to the store layout with a bit of creativity. Works for (android) phone, tablet and computer platforms at the same time!
Review Content Score: 5
Review Content: Found this app years ago. Paid for it when I knew how perfect it is for us. Set up a joint email account for my husband and me just for this. Now we always have the same list, and it's always with us on our phones. We can split up to shop and see each other's progress through the store as we cross off items. We use the long press option so things don't get crossed off by mistake. I even set up a list for medications, so when the doctor asks what I'm taking, I hand her my phone.

Review Content: This is a nice easy app to use if you would like to keep an online shopping list. you can categ
orize your items and they will automatically be grouped for easy shopping. your list can be shared with others
if you wish. You can also keep different lists for different stores. it beats writing out a shopping list with
miscellaneous items added and not categorized. another good use for your smartphone!

Review Content: Ivr been using this app for years and I find this to be an exceptionally well developed app. Al
so it's good for much more than just groceries as the name might suggest, it's also excellent for well organize
d planning in general, such as for when taking trips or planning many other types of events. I should add that
the negative reviews I've seen for this app are typically unfounded, petty, or based on users not being aware o
f the app's full potential.
Review Content Score: 5
Review Content: It's a great app. Our family uses it all the time. We have tried several list apps, and this is
by far the best organized and easiest to use. My one complaint is that I can't use the barcode scanning feature
because it requires the installation of a scanning app that demands access to EVERYTHING, including app & brows
ing history and contacts. Too invasive. I would give this 5 stars if it would work with a less intrusive scanne
r app.
Review Content Score: 5
Review Content: I really like how much I can organize my lists in this app. Also helps to be able to share list
s and apply pictures for products with the paid version.

Review Content: After trying several other apps for shopping, we have found THIS app to be superior. It has the
ability to create and add shopping lists from multiple family members, and to add to each list from multiple fa
mily members, for ALL to see. Conversely, if the family splits up to shop, as each item is found, the various f
amily members can mark the item off the list as found, and ALL will see that it is done. Prices can be added, a
nd also, locations (various stores). It is a wonderful App!

Review Content: This app is great! It even lets you put in your favorite brands. It is super simple! We need it

Review Content Score: 5
Review Content: This is a very handy, organized app. Once you enter an item onto a list, it is there for repeat
buying for your next shopping trip. We made our own headings, and classified items in our way. It works GREAT!
Also, the ability for all of us to see the list helps us to know if one of the other family members has gotten
that item, so we don't double buy.

Review Content: I love this app! It works well with Amazon Alexa, which is a huge bonus. Our Groceries has repl
aced my old shopping app which, when they updated it, they added a bunch of stuff I didn't need or want. I woul
d love to have the capability to add a note to a list item rather than make a new entry. Instead of having to c
reate separate items like red onions & white onions, I could just have onions and then note which I need. The c
urrent "notes" section is sort of useless which is the reason no 5 stars.

Review Content: Love this app.this is a great app! Syncs across to family members to add and see what is on the

Review Content: Perfect. It remembers everything I have ever bought. I even create categories of the aisles of

Review Content: Great app, easy to include multiple people to have access, updates new items you put on there i

Review Content: The products are extremely good and economical but their coverage of delivery area is very bad. I have ordered Ghee,curd and Tender coconut but though my order is accepted by the app, the delivery franchise has rejected my order. Then I have chosen a place which is just 3km away from my home, ordered again, got it delivered at the place where I am not residing. If they are interested in expanding their horizon,they must try to deliver, atleast to some nearer places from the present delivery area.

Coconut water is only roughly 300ml (as opposed to their asd where they claim it's much more). And the water isn't even tasty/sweet. The coconuts that you get from the local vendor are half the price and tasty. I will not recommend anyone to order using this app if you have other places to order from.

Review Content: Totally Dishonest Company (My milkman is slightly less dishonest than these guys) Don't go for
the honest branding, the pricing strategy and VIP pricing are so deceptive. It's good only for new comers and a
fter that you get to know what are these guys upto. You buy VIP which good only for certain amount of money aft
er that you recharge again for VIP and keep doing that. If you have joint family you will run out of vip every
4-5 trips and then you keep paying for this calculated scam. NO GO !!

Review Content: It's a great app! And my husband and I are both able to view the same list from our respective
phones - which is amazing! The one thing I don't like is that when you touch an item on your list it either del
etes it or you have to hold your finger to delete it but to edit it you have to touch to the right of the item
the little dots and then it says edit it. If when you touch the item you had the option delete or edit it would
be a much better app... In my humble opinion.

Review Content: The app is great but I wish you could add a feature that would update the delivery status in re

orders are delayed customers have to make multiple trips to collect their stuff. This has happened to me multip

ince precautions have to be taken while going down to collect orders.

wondering how they are able to do it. We can subscribe for regular delivery of milk, curd. When you just don't
want to leave the house or any traveling plan, You can simply click pause and they will not deliver until you c
lick play again. Wonderful service and I am really happy with it. - KC

Review Content: I'm really at ease after using this app. Such a good application. I started using this app only
a few months back and I can rely on it. Earlier no charges were applicable on delivery but recently they starte

d. But no harm in paying because in such a hard time at least they are providing things at our doorsteps on tim
e. Earlier most of the daily requirement things were available on the app but because of the pandemic most of t
he things were not available. Add a few more kitchen things also.

. Sometimes mistakes happen from the delivery person's side, but we should also understand how they are serving
in this pandemic. This is the life saver app. And whenever i got any product missing, I was informed through ch

Review Content: Good Offers. Quality of products delivered is top notch. Speedy delivery. Extremely supportive
Customer care. Only problem is that though the App is pretty user friendly, it is slow. Ignoring that, the rest
of the service is First Class. For those who are rating it low as products are unavailable, there was a time ev
en Amazon was unable to deliver in my area. It (April-Jul) was a hard time. Now at least in my Area most of the
products are available. @Country Delight : Please work on speeding up your app response time.

Review Content: They took money from you and they don't deliver the product. yesterday I have ordered buffalo milk on daily basis from 25th February i.e today. Today at around 7 am I got a message that the product cannot be deliver due to Reasons out of delivery area. They should have said before or shouldn't take order as I am out of delivery area. When I spoke to CD delivery person he is saying we deliver upto ... Area which is just 1km far my delivery area.

ed a product that is scheduled for Today. I have got the otp and message, that due to some reasons today, It is
hard for you to deliver the milk to my house and I'm okay with that but what is the reason behind deduction of
money. Instead of delivering the milk, they deducted the money from my wallet without receiving the product. Is
this the way you deal with new users? And your service team is awful.

Review Content: “I think your service is brilliant! It’s really so convenient. The wait time is literally few h
ours, unlike other popular apps, who have become too “”big””. I don’t have to plan my grocery shopping a weeks
in advance. Just one point – you guys should have a checkout cart option, where I can select multiple times and
payout in one go, rather than for 5 items individually. Unless this is to somehow persuade me to go for the sub
scription, in which case, it’s a good strategy! ”

Today at 6:30am the deliver person denied delivery and said we do not deliver mi lk for row houses. If this is your company policy why don't you mention it on your website. Early morning being judge and denial of order is not acceptable. Why do you advertise to everyone ? Keep it inbetween celebraties. If you treat common people in such bias mentally.

Review Content: I am finally giving up on Country Delight as they cannot fix the quality issues with Coconut water. I have tried complaining multiple times about the quantity and quality of Coconut water and waited for 2 months. But, they cannot fix the issue. Please don't expect water between 100 ml to 250 ml only. The claim from Country Delight about consistent quality and 2 glasses of water as per their advertisement is FALSE. They have not done anything to fix the quality issues.

Review Content: One of the most reliable delivery apps, they deliver at 5am in the morning without any interruption to us, we saw the items hanging on the door and they posted photographs of the same via app. Most of the items are available which can be ordered for a specific date or subscribed moreover they always have some sort of promotion coupons available for discounts. Have been using the app for the last 11 months and I'm really satisfied.

Review Content: My experience with the app has been very good. Groceries and vegetables ordered were clean and neatly delivered. Only a few times during the pandemic/rain there were some delays. Also, in the initial days, when order did not materialise, money was not debited back to card instead was in wallet. Their prices are normal, but cash back offers and incentives are very good. Recently subscribed for milk. Promptly delivery happens around 0615.

Mistakes may happen but they have always taken the responsibility to rectify it. They're quite ethical in their business dealings and operations issues would always be there. So hats off to the entire team for providing such seamless services.

Sometimes there are some issues but it always gets resolved on time. And it’s fine we can’t get everything perfect. We are human beings and mistakes are done with us. But I am seeing nowadays like if I wanna order 1kg of potato it doesn’t allow me to ask me to add at least 5kg of potato , same with curd. Please do something for this.

I am glad that you are now providing flexibility for customers with regards to weights of veggies (choice for 250, 500, 1000 g, etc.) (see my previous review). Currently, this option is there for many veggies & fruits. Hoping that you would extend further to remaining veggies & fruits. There is an increase in the use of plastic (the green bags) for packing items. Please minimise the use of plastic and promote environment friendly paper bags.

Review Content: I love country delight. I think there is nobody in this market who deliver fresh milk daily like 'Milkman'.The app is amazing but sometime there are some bugs in there system that's not a big deal to think as nothing is perfect in this world,the milk is tasty and thicker.Even coconut has approximately 450 to 500ml o

f water. Fruits and vegetables are fresh and the best thing I can bet you is their customer service that is sup
erfast.

During the chat one time it told me that our executive would call you and then after a few more comments the issue was abruptly closed from their end. I never received any call. I bought Desi ghee and they without information change the price and deducted from the wallet. Then I asked for return and then the never ending pain started. Review Content: Very good app, provides most of the day to day required products at good offers. Delivery is the best part. Be it rain or storm or anything else, they always provide early morning delivery. Haven’t experienced even a single day delay. *Negatives* 1. If any product has been mistakenly ordered by you, it doesn’t allow you to modify or cancel it once the order is placed; neither does IT return or replace that product. 2. Minimum wallet recharge amount is INR 500, which is too high and should be reduced.

Review Content: Country Delight is doing a great job. While I appreciate the service, I think this is really un necessary and risks the delivery person's safety. A suggestion: while placing the order give an option to selec t a 'quick 10 min delivery' or a 'relaxed delivery within the same day'. Customers surely want convenience but not at the cost of safety of others.

As I want to use t his app regularly for my daily needs and don't want to go outside for anything like which I can get from Countr y Delight. In that condition I have to go outside for an out of stock item.

Dissapointed!!!!

Because, 150/- was a promotion al amount I had got when I recharged with 1000/-? If CD promised to pay me goods worth 150/-, then why was this not transferred? And if it was not transferred, why was it removed from my account? Absolute IIM class cheats!!

I recommended this product to all my family members because I loved the products and they all started with this product. I will make sure they stop it now

Including time slot as you can not wake up everyday at 5-6 am to pick your milk or maybe you need it in the evenning bit it only delivers in the morning. 2. You need to change your address from "My Profile" section, should have more than one selection of address option and should have the option to detect addtess automaticall y. 3. More of products to be added, like cheese or dahi.

Review Content Score: 5
Review Content: I live in New Delhi and they never hamper my daily deliveries. I have tried their other products and I found their quality much better than the ones available in the market these days. If we talk about the quality of their customer services, initially I experienced that it takes time to resolve an issue but that is because a lot many firms are working with a reduced workforce. But they assure and they deliver. Overall, I often recommend them to my friends and neighbors because the quality assurance from them is pretty satisfying to me. Hope you got your answer.

milk and this has never happened. So I don’t know if that milk batch was like this or if the cow was unhealthy. . but this was the experience.
Review Content Score: 5
Review Content: Coming to the product, though the cow milk is a bit thin as it is Pure cow milk and not the standardized milk which we get in the market which has added fat to make it up to 4.5 % fat to be sold as standardized milk. Country delight is only pasteurized milk. I can vouch for their quality and till today I have been buying this for the last 4 to 5 months. Usually I buy cow milk and low fat milk for curd. Their curd is awesome and very light as it is made from cow milk. No complaints whatsoever.

Review Content: Application is great and easy to use. Packaging awesome. Service is 99% which is very decent if you are a startup. However, if product is good, I was ready to pay but I now get better quality for better price even in metro cities with trusted brands. My complaints weren't dealt with professionally but casually. It was evident that your objective is profits more than customer satisfaction. All the best. I quit for now.

Review Content: Good product. Horrible services. The delivery guy would refuse to deliver and update that we we re unavailable. Despite several calls this query was not solved. I realised if you are just ordering milk, they would not delivere but if you order bigger value, say ghee only then they would deliver. What's worse, despite being a continued buyer, they will keep calling and pestering for outstanding balance like it used to happen 10 years ago for mobile bills. Better customer service is badly needed.

Review Content: Delivered my order at 5 am in the morning. I was asleep and then I had to be on the phone call with the delivery man for 30 mins explaining where I live even though I've provided detailed address with landmark. I asked him repeatedly if he could deliver later & he denied. If you're going to deliver at odd hours you should ask the customer beforehand instead of making them go through this much trouble. Extremely disappointing guys.

But, now A Days, quality of the products are Extreme down. Even country Delight delivers expiry date products. Further, the fruits and vegitable are poor in quality. Recently, I received a expiry date milk product, which might be harmful for human being.

Review Content: We have been using their product for last 3 years but lately their quality has deteriorated . Quality of their ghee has come down, colour , texture , taste has changed. Eggs which they claim to have yellow yolk is no more bright yellow. We were in live with their products , even had suggested this to so many friends but now so sad and dissapointed to see this happening. Quality testers and sales team , do look into this .

They ask to recharge your wallet, and place an order, after that the delivery date they will contact you mentioning that your area is not serviceable and you need to submit a refund form and they will process the refund after 7 days. Few note: I live in Metro city in hub area so i should get service if it was actually available. Further more if my area is not serviceable they could mention that after PIN code entery. So i avoid placing an order and pay

I forgot to add milk and we definitely need at least 4 packets before 3am. I called them to see if they could give me milk, even though the time had crossed and with early delivery. The guy told me, they generally start delivery at 4:30am. I didn’t insist, but made a request concerning my situation. Country Delight promises unadulterated milk directly to the doorstep of the consumer. There is no addition of milk powder, water or additives and thus the milk is completely natural. Country Delight provides a testing kit along with a quality report to its customers. The milk that arrives at the doorstep of the customer is untouched by hand. Review Content: I stay in Noida and I have been using their cow milk for the last 6 months. I do not have any complaints. We tested their milk 2–3 times and got a clean report. Milk delivery was uninterrupted even during the Corona lockdown and I must say that they have a great team. Whenever there is any discrepancy in the bill I call them and the issue is resolved then and there. So I am not sure about their customer care service during initial days but recently I have not faced any issue.

Review Content: Coming to the product, though the cow milk is a bit thin as it is Pure cow milk and not the standardized milk which we get in the market which has added fat to make it up to 4.5 % fat to be sold as standardized milk. Country delight is only pasteurized milk. I can vouch for their quality and till today I have been buying this for the last 4 to 5 months. Usually I buy cow milk and low fat milk for curd. Their curd is awesome and very light as it is made from cow milk. No complaints whatsoever.”

I have used several other popular brands in Delhi in the past but so far this is the best I have come across. The layer of cream in other brands is a mere starch layer which is not the case with country delight milk.

Review Content Score: 5
Review Content: Once we ordered more milk than I realized. So we thought we would make Kheer with it. When we made the kheer and kept it for a couple of days, I found the milk had become sticky and would stretch (like cheese does when you pull it away from a pizza) the thin stretching lines would form. This really put me off. Even my mother was surprised to see this. We have been making kheer with Nandani milk or other milk and this has never happened. So I don’t know if that milk batch was like this or if the cow was unhealthy.. but this was the experience.

Review Content: “Well for me in Mumbai, it works perfectly. I got the Rs.99 trial pack of 5 days with a testing kit delivered promptly. No one ever rang the bell on my door. There is an option in the app whether to ring the bell or not. I have simply put it off. In fact I did not even pay for the 99 bucks until the first 7 days as I was traveling. The delivery guy never bothered me. I only got a call on the 7th day asking about a review of the quality of milk. In fact I myself mentioned to them about payment which I did later that day. They have very good options in the app to schedule a delivery the next day or not, select , add or remove products and quantities. The billing is very transparent and it reflects in the app itself per day wise deliveries and charges. I am completely satisfied with the milk as well as the management including the app.

Review Content: I got introduced to country delight through one of their team of executives running a sample set up in one of the prominent malls at gurugram in the year 2019 September. After a few days I tried their special offer with the cow milk. We were looking for a good cow milk vendor because me and my wife were facing problems with the existing prominent brands available in the market. We started with cow milk and it was very much suitable for us. Besides milk we tried their curd, cow ghee, paneer, brown bread, multigrain bread, high protein eggs white and brown all been quality products. Regarding the delivery even during the lock down time we used to receive our products on time. One more positive feedback is that their app is very simple and straightforward. We are happy with Country Delight and have recommended this product to many of my friends and relatives.

Review Content: Hello CEO & Managing Director, I was really disappointed from the quality of Ice cream that was delivered to me through one of the known platform blinkit and i found the worst ice cream i had ever. Here you can see three layers in the shared pictures, first was ICE, following which covered with BAKED BREAD and a thin layer of cream. That is not the quality of food that one would expect from a brand Amul of your level & reputation. Regards, Madhuri aggarwal

Review Content: EARLIER the milk quality was good. Now its degraded . Had been complaining atleast 3-4 times . The taste , texture Even for the A2 as they claim is actually not A2 milk. Slightly overpriced too for a normal A1 type milk . Also lots of telemarketing calls too. If the product is not good customer will not be retained as there are lot of other options . No matter how much you advertise it . Just a personal feedback . No hard feelings . Thanks

COVID-19 lockdown was enforced. I've received excellent quality raw milk (thick, creamy), fresh and on time eac

s seemlessly – no glitches, no ads, no paraphernalia. I highly recommend this service (and app) to anyone seeki

Review Content: Half a litre milk costs ₹35.00 which is unreasonably expensive. All those glittering statements such as "100% real milk" is pointless unless a common man can afford it. Think of a person earning 35k -40k salary per month, will he be able to spend ₹1050.00 on monthly basis? Any service for that matter...becomes useless when it cannot be subscribed by a very common man.

Review Content: स्थानीय स्तर पर खरीदे गए दूध की तुलना में दूध की गुणवत्ता वास्तव में अच्छी है। दूध की डिलीवरी आमतौर पर समय पर होती है और सबसे अधिक फायदेमंद वह ऐप है जो डिलीवरी पर नज़र रखता है और डिलीवरी में देरी के मामले में संदेश भेजे जाते हैं। कुल मिलाकर बहुत संतुष्ट हैं उत्पाद और सेवा।

Review Content: The app isn't easy to use at all. Make it a simple app bcz the milk specially and Ghee is ordered by moms and mom can be old too and for them the app is literally to difficult to understand. It would be great if you work on making it simple so that more moms and Womens will come and place their order. If you still think it's a masterpiece look at the Grofers app and Big basket app and even the earlier version when the company was just started.

Later, we have reached out to the team about our issue, they said they will refund it. We gave all the required details for that, he again said they will refund it in 2 days, then 3 days, then 1 week now its been 3 months, no response. They said that 500 was added to 200 in CD wallet. But now wen we opened it, there is no amount available in the wallet.

Review Content: A wonderful service. Delivery is always on time, quality is among the best both for milk and ot her products. Still rating 4 because of overuse of packaging material. Tender coconut unnecessarily wrapped in plastic sheet. A carton is delivered with each fruits and Veggies order, still most of items are wrapped in pla stic. Ghee is delivered in Glass Jar. I agree it is for health benefits & avoid damage to product. But its too much. There should be a provision to collect Ghee jars back and resuse.

I was very sure to opt for Country Delight for my son as I tried many brands, & none of the brand felt genuine, then I got the test kit along Country Delight, even before testing it my Grandparents approved it to be purest & safest and hence I chose Country Delight as my Child's Nutrition and Growth Partner. It comes fresh from farm & gets delivered before 7:00 AM daily, without a miss. Trust the brand and try it once, I am sure you will never be disappointed

The issue that we are facing is 1) the app is not having a good support to order multiple products for one time 2) Monthly orders are perfect 3) For adding money ..we request you to send intimation of lower baalance atlest 3-4 days prior to low balance 4) Even if some time we miss to recharge ... Suggest to give a delivery of atleast 2-3 days and send reminders for refilling 5) in case if there is no delivery ..need a single point contact to have up date ..

Forget about quality of product which ok not that great, same quality milk i am geeting from my local vendour at the price of 54₹ ltr and they are charging 76₹ for the same quality & also There management between customer and suppliers is very very bad 2. When you start there service first 15 20 days will be ok, but after 15 20 days they will start charging you double against your order. My refund of 1 days still not paid

The quality of the milk is very poor , it is far from being pure,fresh and unadulterated . It's is very powdery and has strong chemical like smell . The same is with milk products . So don't put your money for cashback. It's not worth it. Marketing is good but not quality ..

Review Content: I was excited thinking we get pure thick milk. I opted for few days and initially starting 2-3 days we got really thick and pure milk. Later, the milk we got was really not thick felt like added water in it. Normally bought milk from a dairy or a milk parlour would be much more thicker than the country delight milk. I am so disappointed by this. Starting 3 days I was happy then disappointed later. Felt like got cheated and I cancelled the subscription.

Review Content: CD's A2 Desi cow milk is pure white (really?), negligible fat (untouched milk with no fat?) and
tetra pack with no batch number and no manufacturing or useby date. Despite claims of milk supplied in chilled
condition, only the initial pack came cold - rest were room temperature. And then milk goes bad 3 times in 15 d
ays! Multiple calls, whatsapp bot and email with pics resulted in lots of talk with little improvement or actio
n....complete avoid for people interested in pure desi cow milk!

Review Content: I have been a part of country delight from past many years (I think 2018) and never have I even wanted to switch to anything else. Even during difficult covid times, they were always there. The milk is so pure (I can make ghee out of it easily) and tasty. They have now added so many variants in the same. I am glad to see this growing. I am pretty sure I will be sticking to them no matter what. Thanks for the farm fresh milk at all times.

Review Content: They don't deliver the order and they take money for the items not delivered, when you call customer care, they don't have an answer, they will cut the call in the middle of the conversation. The say they will arrange a call back but you won't receive any call. Customer service is the worst and they ask bank details for a refund and no one ask for bank details unless it's a scam

Review Content: Good quality milk that comes with small kits to check for ourselves if it's adulterated. People who are concerned about it being pricier, rest assured. Country delight does a great job at quality. Milk - great. Paneer- best. Coconut water - great Totally satisfied with the app and products App is seamless. You can set holidays and subscription whenever you want. Only thing missing is - option to purchase products "once". You have to subscribe and cancel if you want to do so.

We won't use the products where a fake feminist, pusedo intellectual and a sexist is involved. #boycott_countrydelight #remove_nehadhupia #equality

Review Content: It was good till July 30 2021, post that it's smelling as if they have mixed with milk powder. We stopped ordering now. Thanks for providing two packets extra by resolving the issue. Now actual problem started with low quality milk. Earlier we used to prepare curd and used to form good amount of cream layer while boiling. Now neither we can prepare nor cream layer forms but in curd we see good amount of water which we haven't seen on initial days of country delight orders.
