Review Content: Milk quality and delivery experience is very good Vegetable delivery is another story, lately there have been frequent cancellation of orders without mention of any reason, items get dropped from cart after successful order placement again without any intimation, so keep that next day lunch menu tentative as you may get a partial or no delivery. Probably they are having issues scaling which they need to fix very quickly to maintain customer confidence.

Review Content: Very poor service, they have taken amount from me, and not providing their delivery in my area, when I paid the amount it showed up the delivery, but after the payment they denied the delivery in my Area. Firstly they should confirm weather they can serve in that particular Area. They are ready to refund my amount but I don't need my amount. I need the product for which I've paid for.

Review Content: Unethical practice of increasing product price without notification. I subscribed milk which was at price Rs 35 and then without any notification that too in between subscription they increased the price to 36.5 then after just few days later again a price hike of 1.5 Rs. without any notification. As of now I'm thinking to stop their services despite of the good milk and good delivery services, just because I don't know what will be their price hike just the next day.

Don't fall for this 200 cashback. They won't refund this money to your bank account instead they add it back to
the wallet. There is no terms and conditions page that mention this. They bring you their products even if you
don't have enough money and later balance will be in negative.

Review Content: Worst experience that too in the first order itself. Had ordered 2 coconut water and 1 buffalo
milk. Selected 9-11:30 am slot. Order remained undelivered. No message no communication. In the chat box it was
told that delivery boy wasn't assigned. Customer care executive said in my location only early morning slot is
available but system didnt tell me while ordering. | wouldn't recommend this brand as its not at all reliable.

Review Content: This rating is for the service delivery component. I am a new customer, and a disappointed one.
The company really needs to spend time to train their delivery guys on no unnecessary talk with customers and t

needs to be pointed out). The market is full of competition, don't take your success for granted.

Review Content: No complaints regarding the products. Only drawback is in the app. Delivery tracking option should be there so that customer can track the order. There is no such option and no update neither in the app nor from delivery boy. And other shortcoming is that there is no cod option. In that case in one of my order the delivery boy doesn't deliver the order and in app it was showing as delivered. Just improve the app otherwise products are nice.

Review Content: I'm extremely upset that they put your wallet in minus and then call for recovery. If there is not enough money in wallet,then stop delivering. But no country delight will continue delivery in minus balance and then someone will call you and tell you need to pay. Uninstalled and won't recommend to anyone, better to buy from local vendor.

Review Content: Low quality buffalo milk. Mother dairy is way more better than country delight milk. It doesn't matter if they provide testing kit or not. Honestly I didn't like the quality of milk country delight have. Charges are also more then the market price. People are ready to pay but we need quality. The app is good but the quality of milk very poor. At one point you will feel disappointed. The ads they show are not true. All the best for your purchase.

Review Content: Poor Quality Milk! I'm a CD Kolkata user, I don't find the quality of milk as good as per their pricing, Raw Buffalo milk in Kolkata city cost Rs 70 per litre and in out skirt of city it only cost Rs 40 a litre whereas CD selling same at Rs 78 a litre and it's only one third as thick as milk available in local market. Don't recommend to anyone. Don't fall in their misleading advertisement. Peace.

Review Content: Very worst app and services 1). If you were not delivered some places then why are you giving account. 2). After then you allow to add money also and not informed that you are not delivered - when user ask to you then you are saying we are not delivered in your location. - when refund the money you are taking 5 to 7 working days, why at the time of adding money to your wallet you instantly withdraw money.

Review Content: Once upon a time, a new company promised high quality milk at marginal premium to competition, and they were damn right. Then they hired a battery of celebrities and social media influencers and started bombarding ads everywhere. Since the cost of these ads had to be eventually paid by customers, the company increased its prices by more than 1.5x in less than 2 years. Yes, this is Country Delight for you-increasingly becoming more and more expensive and unaffordable. Greed is good, but itna???

Review Content: WORST APP. Please don't waste your money. My first order was not delivered. Apart from that cus
tomer service is pathetic. My brother ordered paneer he got milk instead. They take no responsibility of error.
Such a shame. Try BIG BASKET or any other relaible subscription app. They have limited and worst products. Even
if they deliver wrong item they would ask you to return it . However this is the most pathetic thing.Since it's
a non returnable item. Extremely unsatisfied and feeling cheated.

Review Content: There's an option to choose between Buffalo milk and Desi cow milk. But when I tried to find ou
t which variety the milk would be sourced from, they had no specific breed mentioned. So there's no guarantee t
hat you'll be getting it from Gir or Sahiwal cows as they source from farmers holding Jersey cows too. Country
Delight is just another scam. Edit: they claim to have changed something but I don't see any changes. Your cow
milk could be from Gir/Sahiwal/Jersey(mostly) breed. Don't get cheated.

Review Content: Had been using Country Delight for more than 2 years now, but now planning to switch to a different milk service. I ordered 4 coconuts twice, on two different occasions, and both times only 1 of it was usable. Moreover, they've begun to suspend services by saying that there's negative balance despite there being enough in the wallet for at least two more deliveries. The customer service is also pretty bogus, they just care about whether or not you've fixed your "1 star" review here.

The worst part is you have to recharge your wallet first and only then you can place the order, that means you will pay certain amount to the company and then they will not deliver the things you ordered. Even the customer support failed to help me everytime. And today it's showing that my area is out of their delivery area!!! Total waste of money as I got the wallet recharged and also time!!!

Review Content: Been a user for more than 1.5 years now. The service is just becoming less and less user friendly (still I stuck on for Dahi). But you are leaving me no choice, all one wants is an uninterrupted supply of milk, no hassles but if i have to call every month for some or other technical concerns, or credit limits or other small stuff, its better to have my old doodhwala. Just recharged 1500, yet calendar shows no delivery scheduled and app is giving low balance notif, seriously !!!

Review Content: This is such a disgusting app and the services provided are even worse. This was my 1st order and I was expecting the delivery early morning. The delivery boy called me at 7 AM and said he will take another one hour, this is 2:30 PM, 7 and a half hours passed, no one knocked my door with the order and the worst part is the person updated the status to be "delivered" without delivering. In the mean time, I called the customer care and heard mere unresolved promises.
Review Content Score: 1
Review Content: Edit-1, delivery guy turned up ans also cash back. The ghee is of good quality, so is milk. I found price to be higher a bit. Review 1- Before wide spread adverts they should expand delivery scope, without much work app quietly makes you to add money to wallet steal your cash back awarded saying your address is not deliverable, why can't this feature checks upfront? We will come to know when we call to customer, my rating will only change if they reopen offer once the area is serviceable.

Review Content: Worst service provided by country delight. They don't want to listen to their customers. Here is why I am not happy with your service: I have ordered multiple time from this app but not a single time I have received my order. And each time when I called them for reason they always provide reason either my address not falls under delivery area or they are not catering new users. And most funny thing is that my friend who referred me lives in same street and he is receiving his daily orders.

Review Content: Worst service, simply they providing toned milk with packed cover with country delight logo they are looting money in the name of pure milk it was a purely 3rd party vendor they providing to people and their mill was also similar to regular available milk sachets like heritay, arokya, Vijaya so dnt be cheated by trusting this app and dnt do recharge for higher amounts 1st, if u do u should bare their milk ...

Review Content: Country Delight is total BS. Charges you money, does not deliver for 3 days and then tells you
we don't deliver to your location. Obviously it is run by IIM grads, because they don't know how to run a good
business. Now they'll reply with a email address where I can write to. Take that email address and put it where
it hurts and stop duping

Review Content: Best quality milk delivered with poor developed app. I've really enjoyed the quality of the delivered milk. Tried many other brands like Vijaya Gold, Local Buffalo milk, but they are nothing when compared to the Country Delight buffalo milk. 3 start is because of the fact the app is designed. One has to add money to the wallet and then add the quantity of the milk for x number of days. But the only problem is that it's difficult to track the remaining days you've paid for delivering the milk.

Review Content Score: 3

Review Content: App is not user friendly at all, it will send you order even after you've stopped it, first we thought it was to exhaust the wallet balance. Then they continued to deliver milk and put wallet balance in minus. I somehow managed to stop deliveries and cleared all the dues and installed the app. However, I receive calls from them to clear the dues. Really pathetic app and bad UI and UX.

Review Content: Good for tender coconut. Horrible in milk. Had started subscription for cow milk it was highly diluted and it definitely has chemicals in it as once i frgt to keep milk in fridge and the next day it turned into curd. Ideally it should have been spoilt or turned into paneer. Also second test of chemical is i tried ma king paneer by adding lemon to it. I almost boiled for 15 mins still no change. Instead of heavy advertisement please focus on quality. Third they mix milk of 3 cow breeds.

Review Content: It was good initially and I thought it's best quality but we found that full of oil is coming up on and also thick layer forming even without boiling.. Seems like they are adding urea oil and some kind of powders.. Even the real milk will not give this much thick after boiling but this milk does... Completely fake and don't trust.. I suggest everyone not to buy.. I will also post the pics of this unnatural milk.. Fed up with all milk products and never be trusted

Review Content: Our experience with Country Delight has been wonderful. We are getting pure and fresh milk ever
y day and milk is getting delivered on time without any delay. The Country Delight app made life very easy and
we can simply order milk and all other products through app based on our requirement and consumption. The app i
s full of useful features. We request country Delight to add some more dairy products for the customers like sw
eets, mawa etc.

Review Content: Horrible milk, consuming it made my family sick for a month, and then we had to stop their subs
cription. Thier milk products are fake and not good for consumption even after paying so much extra money. Amul
brand is best. The fruits and vegetables are also costly, they are just making pure business and not thinking a
bout their customer's health. I am damn sure thier milk contains horrible chemicals so that all 4 members of my
family got sick and were having stomach and hormonal problems.

Review Content: Worst experience. Bought subscription but they didnt deliver milk but in app they mentioned tha
t it is delivered. One day person delivered curd instead of milk and said milk is not availalble so delivering
this curd. After checking the expiry date of curd found that it was expired. Later on i discontinued my subscri
ption. My entire money got waste. One day suddenly got call from country delight that my bill is due. Completly
worst and trash level experience, system, application and management.

and there is no response even after the complaint was raised over mail. There is no courtesy to even inform the
customer on the non-delivery of the products. It is worthless to add money in the wallet. The trick is to provi

Review Content: MALAI is already REMOVED from the milk As they say they haven't added water, true, maybe they h
aven't added water. But i am 200% sure they have already removed the cream/malai from the milk. It is not pure
buffalo or cow milk. You can check it yourself. As the malai you get will be very very less as compared to pure
buffalo milke This.milk is no different than of mother dairy and amul All these guys remove cream from it while
they pasteurise the milk before it reaches you

Review Content: Leave aside the bad delivery and the inconsistencies in service, their whole marketing gemic is a hoax. They don't own a single cow and are exactly the same agregators as amul/mother dairy or any other milk you drink. Even they don't know what the cows are fed and the quality of milk is mechanically managed. Shame on those celebs that support this fake brand doing nothing but false marketing.

Review Content: Worst worst worst! On the first day of subscribtion didnt got the order, called customer care the executive said she dont know whenit will be delivered. You wait, when asked for till what time i should, she raised her voice to almost shouting level and said you have to wait. What worst can you offer country delight. On my first day itself I want to cancel my subscribtion.

Review Content: Very unprofessional people. It's a ridiculous policy to not to enjoy their services from different account. It seems they are not interested in any promotional events. Every another company provides us the benefits of availing cashback from different accounts even at thesame address. And the support executive hangs the call in between. Why would customer go with you, If you don't have a moral to how to talk with customers. You already providing milk at such a higher cost.

Review Content: Excellent quality of milk. For those finding milk watery may be comparing it to full cream milk. Full cream milk has cream added to it. But here the milk is unaltered and natural. The delivery guy is very respectful. He greets us every single day with Good morning sir/mam! :) My only complain is price of veggies and fruits. Please don't use cheap tricks by mentioning price of 450 gms or 900 gms. It's hard to judge per kilo price. Probably by design but customers would appreciate honest pricing!

Review Content: Most of these online business fail because of their poorly designed apps, lack of support and bad user experiences. I will give you a free advice, Don't ask user to select the location when there is no listing available. Simply ask the user to select city and get their geo location and warn them that your services are not available in that location and signup for notification when services are available. Don't waste our time.

Very much disappointing when u get to know about it at the time of delivery. Instead, it should have immediately intimated while we locate our home location over the Area Map during the registration process. Your application is to be improved a lot. It is upsetting and disappointing one. Now, I've to wait for a week of time for my amount to be refunded to my bank account.

Review Content: A joke...Super confusing UI is pathetic. And what's this monthly plan & recharge drama. You don't need such desperation to fetch money if you're confident about your product quality. I don't want to go for a monthly plan before actually testing the product & service. There are many complaints stating money being deducted yet product undelivered. Demanding long term commitment from customers keeping no room for single/one time purchases is outrageous. Uninstalling

Product is costlier but if we counts testing kit, lab testing result and delivery cost its value for money. Improvement needed:UI need to be more user friendly.(Slow server, switch to dynamic server. Static details can be saved on device.)Don't give hard copy of lab result and give online for next delivery. Expand catalogue.(Bread, pulses, fruits). Flexible time slot.

The person turned out to be ex-user who complained. Whatever he said turned out to be true and even I experienced. The very thickness they boast of cow milk, itself is the worst part. You can see yellow fatty oil type substance in the cow milk. Which I find unhealthy. CD is spending huge amt on advtg on social nd tvc but the quality is pathetic.

Moreover even if you have 1500 rs in your wallet you'll receive calls from them to recharge your account. The nuisance is increasing day by day as if the customers have nothing else to do other than to pick their unnecessary calls. Quality of products is degrading as their only focus now is on aggressive marketing.

Review Content: Order if you want to regret it. Terrible products, callous customer care and careless delivery guys. Products are bad smelling as not maintained in good temperature. Delivery guys will throw product anywhere. Process for refund is very long. Once you ask for refund you will get 10 calls but the same discipline is not maintained in quality and delivery or customer care. This is my edited review after my first bad experience... The second experience is even worse and seals the deal. Don't order !!

Review Content: STOP spamming your ads. I don't care for your service. I don't need it. Update (post brand reply): I have had similar problems with other brands that have behaved intrusive with ads. I reached out to them, they stopped targeting my mobile. So, Country Delight, don't ask me to skip ads. I know I can do that but I also know how to be a responsible marketer. Tone deaf brands like yours deserve AdBlocker.

Review Content: Ordered tendar coconut, some how managed to open it with lot of effort. The shell was so hard, it wasted my 20 mins. Thanks to country delight it gave me 20 ml water. What are you marketing? I will take some time on weekend to show coconut opening video of country delight on youtube, so that others dont fall in this marketing gimmick. Hats of to you guys, you guys got guts to openly fake this in marketing campaigns. Update: Google store removed my last review not sure why.

Review Content: I had actually been buying cow milk for months from them. But then I went to my native where my mother in law showed me how to make ghee. Thought I wld give it a try. The ghee I made out of the said malai smells like coconut oil n vegetable oil mix where as with the same process ghee made at home is superb quality. I hve both the ghee with me n anyone can see n smell the difference. I don't think I need any further proof as of what kind of milk they are selling. Stop buying milk from them

Update: After two days of absolutely frustrating experience finally got my money back, however the process to reverse money from wallet to bank account is still pending. The executive had promised to share it in afternoon however I have not received it yet. I will refrain from placing any new order till this gets resolved
Review Content Score: 1
Review Content: Never fall prey for this group. Initially their service would seem good. However, the moment you load more money in the wallet and go for longer subscription, they show their true color. You don't get the assured quantity as assured. They will try to just call however will never fix the issue. At one point, they stop responding to emails (in my case, it was just my second email they stopped responding, even the so-called quality team). You cannot take the wallet money back. It's a nice trap.

Review Content: I raised a complaint for non delivery of milk on 2nd of July. Country delight was least cooperative. Just for name sake they raised a complaint but there was no follow-up on that afterwards. 48 hrs TAT is wat they gave but it's almost a week now. Very poor way to treat customers considering you guys have recently started here. If this is the attitude, you won't last long. I'm very disappointed

Review Content: While the quality is good, they get on your nerves. First they added an item in my basket for an entire year, without asking. Then when I inform that I am out of station, didn't order and can't collect the package, I got three call in the span of an hour, early in the morning, by different people insisting that I either take it or get someone else, ie a neighbour to collect it. The mere fact that they are after your life to take an item you didnt order is annoying. Uninstalling the app!

Review Content: I come from a farmer family. Spend 30+years of my life drinking pure milk. Single sip and I can
tell if the milk is pure. Country Delight milk is not at all different from Amul Or Motherdairy. Their claim of
bringing pure milk from farm to consumers without any processing seems fake to me. The cost of popular brands i
s ₹55 per litre for full cream milk and country delight sold me at a rate of ₹76 per litre. Looks like extra ₹2
1 per litre were spent on advertisement instead of purity. App is ok.

Review Content: When you grow as a company, it's because of your customers & when those customers complain that something is wrong with the product you need to hear them out rather than blocking them. This is such a shameful & cowardly from your end, that my sister complains about fruits and veggies being in bad condition, you decide to block her rather than apologizing & helping her out.I have been with you almost for 2 years but this behaviour is unacceptable, & I quit effective immediately.Horrible IITians!!

Review Content: I have been using Country Delight since last June and I have not had too many reasons to compla
in. Once or twice there have been errors in products delivered etc but nothing too much to bother about.I find
their service excellent and am totally dependent on them for my grocery needs.I only wish that they would have
earlier slots for everything,there is always a days gap between order placed and delivered.I can rarely expect
to get my stuff same day as most items not in express delivery as of now

oney and if we want quit ,we dont have option available to quit and to get our wallet money back.So on overall
very bad and bitter experience. Paying extra money over regular regular packet milk but no value for money and
with a bonus of bad service.

Review Content: All fake promises done, I never got the testing kit despite of calling customer care and requesting for it 5 times straight after every order. If your USP is to provide a testing kit so that the customer can check the purity of milk , why not provide it despite of multiple calls? , I guess complaints to the customer service goes on deaf ears. Also, I do not think I might refer this app to anyone around or even ask them to try your product. I would myself discontinue after my current subscription

Review Content: Nice products & app but pathetic service, literally the worst ever. Even after multiple complaints for changing delivery time the delivery man arrives every day at 5-6 in the morning. Ordered capped coconuts but they delivered uncapped ones saying "capped coconuts are out of stock", eventually had to request a coconut vendor to open them. You can't expect to get what you ordered, service is that level pathetic.

Review Content: Weird T&C, as single person can subscribe on a address. Means if the House Owner/ A Renter has already made a subscription on the address, no other renters or even House Owner can make a subscription on that address. Also, limited range of products and that too highly priced. It is nothing as such that, if you pay high, the product you get is better than its competitors. Beware of this app guys, they will loot your pocket. INR. 66 & 76 paying for a ltr of toned cow and buffalo milk is not worth.

buffalo milk. Which I suspect they extract for their ghee business. I use Erden creamery milk as the yardstick
as they provide unprocessed milk. My advise is to try different brand. IIM alumni company works on cashbacks fo
r better brand stickiness. Outdated business strategy. Focus quality.

Review Content: I downloaded this app around 1 mnth ago and have been ordering paneer and coconut water on every alternate day. I must say paneer is really fresh and tasty but I recently received empty coconut(no water). That was unexpected. On top of that I mailed for refund or replacement whichever possible but no reply from the app. I request for an action to be taken.

Review Content: Worst customer experience. 1) Delivery Slots are changed automatically without your notice. 2) Items are removed from order without notice even if the delivery person has the stock, 3) delivery slot can only be selected once in the profile and has to be changed everytime if you need delivery of certain items at different slot. This doesn't make sense, it should be allowed to select the slot on daily basis and customer should anle to split the product s in different slots.

Review Content: I am very disappointed and dissatisfied with your products. The charges are higher than usual compared to established brands and the weights are also lesser What kind of cheating is this. Paneer and dahi are published as 200g and 400ml, but they are easily very less than that. Even the bread slices are lesser than t

he highly established brands and costlier in price. You guys seem to be taking unfair advantage of the lockdown period. I am planning to discontinue Country Delight soon. Regard

I tried coconut water land ghee on my first day.Surely all good things as per the quality of products you are paying premium charges. I reload my wallet for the whole month...and the qulaity of coconut gone down.. and today i found worst as not a single drop of water in a watery coconut. Milk quality is also like same in the market availble at almost half the price. In app no sapce to write down.

Review Content: Update 2 : service from your side. So honest rating from my side. Sorry . I got to go back to "Plan A" to get items delivered from the local seller or other vendor. Update 1 : Lodged a complaint @ your cus tomer care. Will update my rating accordingly. Delivery Man has not delivered entire list of items but your App deducted full amount, Ring the bell option is set ON, but delivery man never rings. Customer Care never hears a nything, they are deaf. Poor service.

Review Content: Was a loyal customer of this brand when they had started out in 2019. Quality has gone down sig nificantly now, they increase prices of there products without intimation, and there referral program is an abs olute scam , even if you follow their terms and conditions, you don't get the referral money. Hence switched to Akshaykalpa, and it's been well since then. This is my honest feedback. Subscribe at your own risk.

Review Content: Hi, if it was minus points I would have given that too, as many people who stay alone I am one of them , so my requirement I ordered I don't know they deliver milk with 1 day validity , and say easily that we are not responsible for whatever happens after that date, so I want milk that I can use for 3-4 days as I am alone they say they send 1 day prior expiry milk inky as its pure. Which is not with other milk as I was using. This is only marketing and sponsored advertising that's it

Review Content: Never ever download this for the coconut water service. It is pathetic even in Delhi NCR region
. They guarantee you 260 ml of water minimum , but once I received a coconut with not a single drop to drink .
It was a complete mature coconut rather a copra instead. That day, actually I had ordered a capped coconut sinc
e I stay in a PG, so I don't have tools to open the uncapped coconut myself. But due to unavailability, they de

Review Content: No milk has been delivered but in the app.. it shows the delivery was completed . I was trying to raise a query I have been forwarded to an email .. I have sent an email explaining the issue no response fro m country delight . No customer service contact except email.. it's not about a single product it's about the c redibility and customer service ... Should make more options for those. Product is good .. but should work on o k options towards customer service.

Review Content: FRAUD ALERT: I have been using Country Delight for more than 15 months now and have been satisfied with the services and quality but being a regular customer and paying almost Rs. 6000/- a month, what I get to experience is that my delivery gets stopped for unacceptable reasons and the high headedness of the Company reflects when they do not resolve the issue. The excuses they come up with are with respect to advance Payments for a month and low wallet balance. Shamegul whims and fancies.

Review Content: Only ghee is good, milk is not up to the mark & price of milk is 74 rs ltr too high and milk is very thin (compared to saras gold which has 52 rs per ltr and too pure and tasty & full fat and cream). Recommend to not buy milk rest product can buy but before check market price for the same product. Thanks

Its not matter of 10rs cashback.Its just not fair to not give cashback on 1000rs recharge and insted give it for 500rs.Also by thay logic I was suppose to get cahsback on 500rs.That also they rejected.

Review Content: If possible, I would have given 0 star. They have a policy that if there are multiple flats at a single plot, then they will choose only one flat to provide services. If you raise complain again and again e very time you will come to know a new thing. Their distribution team is as busy as Our Prime minister so they a re unable to visit. Funny thing is that they are ready to refund but neither happy to sell their product nor re solve the issue. I regreat that I referred my friend for their service.

Review Content: Pathetic Delivery process. The delivery person comes at 5:30 AM in the morning rings your bell, disturbs you and leaves the milk outside for the monkey's to enjoy. Despite of several reminders they don't cha nge time to a later date. No hygiene etc is maintained as they claim. Making fool of people and charging 50% mo re. Complained at least 10 times on the delivery issues. No action taken and delivery people deliver milk at th eir own convenience. Tired and now stopping the services.

This app can ask you to put 1000 rs in you r account but will put the subscription on hold if your account in goes negative balance. Seriously after so ma ny transactions the company cant even trust the consumer for 100 Rs... The Milk cost is too high but quality is OK. At times quality dwindles badly and there is no refund or compensation even if you complain that product is out of quality for few days.

Review Content: The quality of the milk is super thin and poor. I received a fake milk quality test reports eve
ry day. I sent a mail to customer care complaining about the milk quality, surprisingly i received poor respons
e from them as well. I received two calls asking about the problem and no action were taken. Sometimes app does
n't even work, i couldn't stop receiving this poor product and ended up paying extra amount. I started purchasi
ng local milk which is far better than CD milk both in Quality and price

i tested milk by provided kit...it contains urea and detergent in milk...it was not expected from such company
which was established on single moto..that is to provide original unadulterated milk.. but now it failed all it
s customers..I have already filed case against them...I hope others take it seriously... UPDATE- I had a chat w
ith quality head.. it was due to some problem in production plant..

k and we were surprised when the milk turned dark yellow and it was of no use after that , we can neither make
paneer nor drink nor of any use. My parents were frightened and requested to stop the country delight products
with immediate effect. We are scared that this milk contains some harmful chemicals which is very risky for our
health. I am also have pics of that yellow milk

Review Content: This is fraud company. They deduct balance from your wallet without any order as per their wish
. You will load wallet from from hard earned money and they will secretly take it away. Beware guys. I dont kno
w how this loot is legal. They deducted 500 in name of cash from my wallet and remaining 300 is still is in my
wallet as it had 800. That 300 is also stuck as they have now refused to deliver any order. 800 ka choona. Frau
ds. Your milk is costly already and then also you want to loot.

Review Content: At first I was a bit sceptical about what they will give in the name of buffalo milk as I had grown up drinking buffalo milk. But since I moved out of my hometown first for college and then for job, that milk was also forgotten. Today when I drank country delight's buffalo milk, all those memories came back rushing. I got nostalgic. I found the taste long forgotten. Kudos to country delight for such quality even in today's world. You have made a loyal customer, hope you keep up the good quality.

Review Content: Country delight really needs to hire good, intelligent and sensible Business analyst/ product owners if they wish to retain their customers. 1. Don't deliver products on credit. 2. If giving then don't ring the customers endlessly through delivery boys. 3. Once negative balance is sorted, the plan starts again. 4. Even if the customer is not home or door has a big lock then also company does not cancels the order as per delivery boy. These are few points but the issues are colossal.

Review Content: I am going to take my time with this review and this doesn't happen very often. I am so impressed with every aspect of Country Delight that I had to. The Quality - Just heating the buffalo milk that I get fills my home with the intoxicating aroma. Made me fall in love with milk again. The Service - Courteous & prompt delivery executives. The App - I simply love the flexibility & every single feature in the app. So carefully thought out & does not clutter. Please never change! Please.

Review Content: The delivery throws the milk packet on the ground so that dogs and cats can damage or drink the milk, though there is bag available to the gate. There is no response either by mail, or customer care or the dealer numbers... They have derived company policy and terms to be told to the customers and not to satisfy the customers.

Review Content: The app was not accepting my payment so i thought i had to increasse the quantity of milk packets to justify the 500 pack that i took.Once i did this my payment was accepted. This caused lots of problems as everyday i was being delivered 13 pkts of milk. Please look into this feature where there can be cancellations of order before time . Also a box for specific information.and smaller denominations of payment which match the price of the milk packets.

Review Content: Worst service . Please dont buy products from them. On 12th august their milk got smelly by the evening and there is no response yet.I have complained but care is not supportive. Everytime they will say that we have registered your complaint and you will get a call within 24-48 hours. But you wont get any call . There is no response on mail from their side. And for wallet recharge they will send you text even if you have 1000 rs in your wallet . Its better to take Amul or Mother dairy milk .

Review Content: App is okay, but their products are pathetic. Their milk and paneer used to be good, but now milk tastes like water and is very thin. No cream even in the buffalo milk. And paneer smells bad and tastes sour . This has happened on multiple occasions in last one month. Go for Amul

Review Content: Annoyed with the constant testimonial ads from YouTube I finally gave in to Renu Rastogi and her family members that love unclumpy paaner unlike the other inferior brands. I order the milk and a choir of angels along with Navazudin Siddique came from the sky and dropped a carton directly to my house. I'm stuck in a horrible addiction where I have spend every living second drinking their milk. I'm currently in therapy for my crippling Milk addiction and my Family is scared. So good I guess.

As a new customer there was no welcome call or information about how my delivery would happen. Moreover you people should provide a cloth bag to every new customer. My delivery was handed to me in person one day and on next day packets were left out on ground in such an unhygienic Covid situation. It's disgusting. Review Content: Milk is too costly... 31 rupees for cow milk?? Why?? Even chitale is for 24.. app is good but cost wise noooo. Now I may get response that this milk is pure than others whoch I totally dont believe in todays world. Untill and unless you yourself dont nurture a cow and have her milk.. you wont get pure milk anywhere.

Review Content: Initially the milk supplied was good. It agreed with my toddler and he drank it happily. Later, during the lockdown period the quality of milk deteriorated terribly. The milk was extremely fatty and oily. Wh enever I kept boiled milk in fridge, it developed some 'DALDA' like solids on top. The amount of fats was truly overwhelming.It didn't agree with my two year old son and he refused to drink it anymore. That is when I stoppe d the service and deleted the app and went back to Gowardhan.

quality milk I have not seen in my life. If u are habituated to such bad quality chemical mix , u won't underst
and the difference. But if u are using good quality milk, u can easily understand the difference through taste.
To understand the presence of chemical, U keep the milk outside refrigerator for days, it won't get damaged ...
Simple reason the chemical presence.

However there bot even a signal call or mail to attend the complain. Hence i am highly disappointed. Calls were also made but the customer support exec told some one will call. This is also around 20 days. But strangely there is no response. The ghee is costlier than any other ghee in the market. I would not like to pay more for a synthetic tasting ghee.

No one will come back stating the reason of non delivery and billed amount of non delivered will never be refunded unless u call them again for the same. Problem is not that it may happen once in a month but its a problem that will appear every alternate day Suggest u may opt for other apps or take ur body out for some 5-10 mins walk to get daily essential

Review Content: The consistency of milk provided by you has changed. It isn't same as it was before lockdown st arted. Especially in the last 7 to 10 days, buffalo milk appears thinner & it tastes more like powder milk, jus t like any other milk in market. If u can't procure enough milk, why r you adding new customers? You should als o not allow existing customers to order more milk than their average monthly usage. Why should we pay u more if we have to end up getting the same kind of milk which others supply?

Review Content: Very very poor service and very poor support. I placed a trial pack order and paid them,but not
a single day they delivered milk. When I call they say they will deliver, but again same.When I call, they neve
r refund also.When I send email, they never reply. I won't be surprised if they reply here with a standard line
saying "send an email to email id we will do our best". That's a regular trick, so that no one knows what they
really do. Don't subscribe, or be ready to lose your money.

Review Content: Quality of the milk has reduced substantially, initially milk was provided with the testing kit
after a span of over 2 or 3 months milk was provided with additional water (how you ask?) The amount of cream w
hen milk is boiled started reducing until the part when very little was generated. Now you guys use some adulte
ration, etc. But one thing's for sure Country Delight - Not an honest company.

Review Content: Worst app I have ever come across. First time I installed this app, tried to order milk (2 pack) due to lockdown. It shows me trail period and even after adding 2 pack milk it shows total amount 0.00 bucks. When I clicked proceed to complete the order, it shows me error. I tried twice but failed. I never got any noti fication that my order is accepted. And then suddenly someone put 8 pack milk outside my door without notifying me. How? Blunder application.

Review Content: Completely not acceptable. I have ordered for milk from your respective App and till date nothi ng has been received so far, inspite of making payment in advance and continuously following up via calls and m ails. This is how you treat your customers. Not even single revert and update.Please be careful guys! Country D elight please look into it on priority.

Review Content: This review is not about the app. I have raised the concern again and again that instead of try ing so many times, we can not connect to the customer care. Sometimes there are issues related to the given mil k which is not as per the prescribed demand.. the delivery boy comes very early and everyday we can not check g iven milk before the boy leaves. This is disturbing..

Review Content: I have been a regular subscriber of country delight products . I don't have any issue with prod uct quality. The only issue I have is with the customer support and billing team. There are a couple of fraud t ransaction happened in my wallet wherein 150 and 1026 was deducted from my wallet. I wrote a mail and talked to customer support team. They admitted that these were wrongly debited and assured that the amount will be credit ed in 24 hrs. I again dropped a mail but nothing worked.

Review Content: When you came to our house for subscription of milk for 5 days we agreed as you said that on th e 6th day the guy would come to collect the bill. But despite that you haven't sent anyone with the bill and yo u are continuing with the milk delivery. This is inappropriate as you should've asked us if we wanted the milk or not before continuing the delivery of milk and charging us for the amount that we didn't opted for.

Review Content: Very bad service, application is not well tested. Once you applied offer and paid online, for a ny unintended cause you alter the order they ask for extra money by sending their representatives to home. Very pathetic management and application. Will never ever recommend this country delight. They provide only milk hav ing 1 day shelf life, but write on the back "Managed by IIM Grad". Cheating. They said on day 1 they will give testing kit, that also not given.

Review Content: I am rating app as 4 star as it's pretty good . The quality of milk I am rating as 2 star. I us ed this milk for 2 years. After 1 year there was a yellow oil like substance always floating on milk , I called customer care several time but looks like they are just happy with the growing customer base . But don't want t o sort out the degrading quality of milk ... I am back to packet based milk ...

But for next 7 days I have not received any delivery, on calling to customer care they said they will get back to me but no replies received. Then sudd enly on 8th day of the subscription I received the delivery. This is not a process Country Delight should follo w. On the application, under 'My Plan' option I am unable to see the the 5 day trial pack and my wallet is upda ted with the full negative balance their is no discounted amount.

Review Content: Iam completely disappointed with country delite.I dont knw how do they coordinate. 1st day the delivery guy came with just one low fat milk and with curd i paid him the amt 70/- there itself. And i also ask ed him to stop the delivery now. Next day again they left the milk and curd without odering and even requesting to stop the delivery. I also spoke to the executive and all payment i done through paytm except the payment i h anded over to the executive. Still am gettig calls.

Review Content: Very bad service. You can never connect to the customer service. They force you to buy their cu rd during trial period and they don't communicate about it upfront. I ordered trial for Cow Milk half ltr. I wa s shown 5 days bill of Rs. 85.50. but i was delivered Curd on the 2nd day of trial. I called customer care but couldn't connect. Somehow i got a call from them for selling Ghee then i complained about the same. The executi ve rudely said that you'll have to buy Curd during trial. Fraudsters.

Review Content: I had ordered milk from them just once and I got delivery three times. The app has some problem and it keeps automatically showing delivery even after manual removal. The worst thing is the customer care. Wh en I raised a complaint they just apologized and charged me for the extra delivery. I asked them to take back t he extra milk they had given and they are refusing it and at the same time asking for a payment.

Review Content: Downloaded app, ordered 2 pkt on trial, sms not received so I dont know if the milk will come! God knows how to change the qty or date or track an order. First off, poorly designed app. Secondly it us all o ne way communication. Delivery is big suspense so should I buy milk for tomorrow's cuppa or wait? As expected I got a message that there is no stock in Bangalore so Good bye to you and your app. Uninstalling it

Review Content: Poor management. They will not come on the time you have selected. The delivery guys will insis t to come on their own convenient time that suits them. When you complain to country delight, they respond stat ing that they have instructed them about the delivery time and this will not repeat but the delivery guy again goes back to his old schedule. I am tired of complaining about the time and have cancelled my subscription.

Review Content: Signed up today for their 5 day cow milk trial at 40% discount. Showed the exact location of my house to their sales executives on Google maps. They confirmed that delivery will start Tuesday morning. I canc elled my regular milk delivery. Now at 11 pm, I get a SMS that trial is cancelled because I live outside their delivery zone. So I will be forced to go out to buy milk tomorrow morning. And CD has my home address and phone number. I am concerned about misuse. CD is not very professional. UPDATE: On 18/12/19, I wrote a detailed note to the email address given by CD in their response. I am yet to hear back from them.

Review Content: Lacks navigational simplicity. Company has never provided lab reports as advertised in newspaper. Milk updates are treated as new orders and customer are overcharged for that. Mail response comes after 2 days. customer care was requested twice to arrange call with senior executive and was confirmed for next day but even after 48 hours no one even bothered or responded. Once you pay in advance these fellows do not bother.

Review Content: Worst app. After downloading it I applied for 5 days order trial of two packets 500ml of milk. But app automatically changed my plan. Delivery boy is keeping 4 packets of milk daily at 4 a.m at my door. And it's customer service numbers are pathetic. Daily I use to call 30-40 times to ask them why I am getting extra packets but never got connected after 10-20 mins of holding. So I have been opted out from this app

Received delivery message on 4th day even when milk was not delivered. Reaching customer care is entirely your luck, may answer the call if you try 20 times minimum. Don't expect any revert on app / mail. Milk quality not great. Didn't receive testing kit. Even the complementary curd on 2nd day was being charged. Absolutely pathetic service!

Review Content: Completely unreliable! They'll not deliver your product for some reason, they'll then blame it on someone from their team (and promise to correct it) on call, but when the same is asked on mail they'll blame the customer saying we'd opted for vacation. Review Content: If there would be an option to do -ve rating i would have given -5 rating. I ordered milk and curd from them and added money to wallet, the order was not delivered but i received a message stating that dahi (partial order) from my order has been delivered but it was not. I called their helpline for around 5-6 times but no agent was available to answer the calls, only IVR was there. I tried to contact through app but the app doesnt work. I emailed the company and no response received from them.

Review Content: The App is really poorly designed.On selecting write to option and then any option, first it pops up to select email option. Ideally app itself should have chat/email/content writing option. Pathetically when you open gmail, there is no email appearing in "to" option. First day no delivery, and no where you can raise concern as at call center no one picks up call (there is no warning which tells how long one need to wait to talk to customer care if they are busy) and disconnects after 1.5mins.

Review Content: On 29th Sept I hv joined con delight but since then today it's 3rd Oct, the milk is not deliver ed. On the other hand the ' teasing' message keeps on coming daily, that the pckt is delivered. I have contacte d Ur customer service 2-3 times, but other than their rehearsed "sweet" Promise of next day delivery. It's not happening on ground. On the other hand my family has started "mocking" my strong recommendations of ur company. Sry to say that ur company strd by IIM ppl, isbadly misng mangmt.

Review Content: The product is of low quality. They claim to provide fresh milk, but it's not the same .The mil k they provide failed two of their test. And on complaining about it they did'nt took any step to reslove the i ssue. Their was no follow up from their end . Apart from this, the curd formed from this milk had a pungent sme ll and there was a layer of elastic kind of thing formed on it. Regarding the delivery concern they do not prov ide the milk on time. Both their quality and service is poor.

They wil call you incessantly, ring your bell everyday in the morning and wake you to ask for money. Sometimes all this is over a few bucks (85 rupees for me once) They do not know how to distinguish between their loyal customers. I have been availing their services since feb, 2018 and always add money in advance and reffered a number of people.but still such behaviour..!!

Review Content: Signed up couple of weeks back and, so far, delivery of milk has been amazingly punctual. But the app?! Yuck! Frustratingly slow and clunky. Even on a blazingly fast phone like the Samsung Note 10+. Today, I updated the order for tomm morn and the app made me go through the entire process of putting in my name, address and location. Why do that when I am already an existing user? Also, the UI is so primitive and dull. Maybe the app was a developed by a kid in exchange for free milk?

Review Content: poor customer service. 1. Company offers a trial when you want to start the subscription, charges you for the trial but starts a regular plan (which does not provide the offer) 2. on the second order, Delivery guy says, the stock was insufficient and delivers lesser quantity. But, same does not get reflected in the account. 3. on 4th day, nothing gets delivered- neither I get any information, nor the deducted money gets reverted from the account. 4. Email, call ends in no response.

Review Content: Pathetic customer/delivery service. They do not honour ring the bell /dont ring the bell option on their app. I even wrote to customer care, called them but its of no use. Its a nightmare to get refunds from them for leaked milk packets. Many a times you would end up being on hold for 10-15 mins on their call centre number. It has now become a frequent issue that the milk doesnt gets delivered. On calling customer care they lie and say its late and would be delivered, which never happens.

Review Content: Cheaters/ Liers/ Fake Marketers : They are marketing in malls, citing fake schemes of "pay for 3 and get 2 days free" which is actually "pay for 4 and get for days". In a moment of gush, peopleare fooled and enrolled and their accounts are created just like that. If begining of a Startup happens on such ponzi scheme, I doubt the credibility and reliability of the product. Definitely NOT RECOMMENDED. BETTER TRUST SOMEONE WHO DESERVES IT RATHER THAN WHO DOES MISLEADING MARKETING SINCE BEGINNING!!

Review Content: Worst application with limited customer care (it must available 24×7) as compared to other vendors. Created new account and asked for trial milk pack, added money and updated address and next day milk was not delivered. Customer care says my profile is blank. Then customer care manually started the subscription. Today, I just updated "Do not ring bell" on my profile and the next day delivery got cancelled. Why there was no warning displayed before that? Hire some good developers for application.

Review Content: The claims made by Country Delight Milk are genuinely authentic. Experienced by me with trial order for Cow milk. Hearty Congratulations to the ALUMNUS of IIM Ahemadabad on venturing to start this much needed enterprise to build a strong India. Converted the trial order in to a regular order through the Prepaid option by contributing to the WALLET to save substantial money over the postpaid order. I am delighted to say that the regular order, booked late at night, is delivered at 5 am !

certainly not recommend it to anyone for there poor customer service. Rather go for organic milk companies like
bovino or oleche as they have a good customer support system and are at par on quality parameters.

Review Content: I am genuinely scared after switching from my more than 2 decades used brand "Amul" to "Country
Delight". I was excited assuming nw we r having healthy milk(buffalo) Though my husband noticed the smell while
drinking.The smell increased especially in the next deliveries. Smell is like "Rotten Wound" Horrible. Lab Test
papers are of "Cow Milk" and not "Buffalo Milk" in the welcome kit. I Am Highly Disappointed And Scared At The
Same Time. I bid Adieu to all Online Milk Suppliers. ****Beware****

Review Content: I subscribed for the 5-day pack but no milk was ever delivered. The app seems to automatically change the status to delivered every day without any confirmation of delivery. Every day I had to call them about the milk not being delivered. At the end of 5 days I have Rs. 106 lost from my Paytm wallet, Rs. 53 showing as refund in the app wallet, and not a sight of any milk. This appears to be sham to me with just a team of app developers and no delivery mechanism or customer service.

Review Content: Quality of milk during the sampling time from 3rd to 7th April was excellent but as the plan wa
s renewed for month, we've started receiving inferior quality milk.This is a new low of deceiving wherein you c
harge premium for sub-standard quality.So,customer get's trapped by your sampling milk & once customer extends
it to monthly plan,you start receiving the worst quality...Need refund & cancellation of plan

Review Content: Worst milk delivery service.Very inconsistent delivery.The milk will not be delivered but the a
pp will count the day as delivered. If you call their customer care they will not have internal records to chec
k whether the delivery happened or not. If you plan to subscribe to them then rest assured to keep spending you
r time calling and alligning the customer care on the non delivery of milk with the app where it will always sh
ow as delivered..Not at all recommended..

Review Content Score: 5
Review Content: Service is pathetic. I requested for trial pack giving full details of address and time, but no one came. Thinking to give them one more chance, I again called their customer care and asked for delivery of milk, again giving full details of address and time. However, again no one delivered. If this is the service before starting milk delivery for new customers, imagine the problem to customers who are already existing. Pity them.

Review Content Score: 5
Review Content: Usually I don't rate these apps but this time I thought of sharing the bad experience I had. Never install this app for milk delivery. If you install, don't add any money otherwise you will loose it all. The company has bad processes and customer service. Milk will not be delivered after first day but money will be deducted. Then you will keep calling their customer service which is rude. I've used many other similar apps but can say that this one is the worst so far

Review Content: App is good but little confusing also. Milk plan activity is confusing. Why Milk Plan and payme
nt are different options? Another thing is there is no reminder, no message nothing before end of milk plan for
recharge. One fine morning you realize there's no milk and then you try to find reason. Then only you realize y
our milk plan has ended. Common send reminder at least three four days to recharge the plan.

Review Content: Bad Service & Systems. Please don't spoil IIM's brand. i was hopeful with service, but the way whole 3 weeks of transaction was handled,bad. the milk is OK, but the delivery kept giving extra milk packets and you kept charging me despite no approval. you bombard with payment msgs, but when I go to pay it shows more amount your sms payment amount is different than the one on your website (which is not taking discount). As IIM you should show the world how to manage business, but you show how not

Review Content: This rating is about service and app. It has been 8 days i started milk and i already complained 3 times, nothing happened. I ordered 3 packets of milk on first day. For 2nd day i reduced it to 2. 2nd day i got 5 packets. I complained about it, they told me that they have cancel next day and day after next day i will get 2.than again i got 5. I complained again. Than again i got 5. I complained again and they assured me that i will get 2 only. But today also i got 5.

Review Content: Satisfactory milk quality but poor service. Delivery service did not ring doorbell even though I had activated the option to do so in the app. Also they did not deliver milk on 1 day and balance was deducted from account. Very poor service indeed. No option to raise complaints on the app. Needs alot of improvement.

Review Content Score: 2
Review Content: excellent milk quality supported with excellent delivery
Review Content Score: 5
Review Content: Well this rating is for the service and not the app. Overall the concept and the way to achieve it is very good I mean the app. You can customize the delivery in the app. But today was the first day when the milk was to be delivered and I had opted in the Do not Ring Bell option. I at least never got the milk delivered. As per the company and the Delivery boy the milk has been delivered at 5:40 AM. So not sure who will take the loss of approx 80 Rs for today. But then if you are to take milk the do select the Ring the Bell option. I will not be continuing with them after 5 days trial as you need to pay them upfront.Even if milk is not delivered for the next 4 days I will not be able to get my money back so will be opting out for sure. Also they do not deliver in the evening and to wake up at 6:00 AM to take the milk is not an option for me.

Review Content: Milk tastes good but not higenic and quality also not par. Got a dead fly once and many time small pieces of fodder. Tried to contact their customer care and was assured that I will get a call from their quality control team, still waiting for the same. Although I got atleast 10 calls per day from very annoying ivrs system to pay the dues every 15 days. So much for a company running by an IIM graduate

Review Content: Updating my review to 3 stars..milk is good but to get the first delivery is very difficult..it took couple of failed attempts and finally low rating on the app which made them finally deliver milk to me..guys you are giving full page advts in NCR you need to get your customer service right and why does it always gives out of service area for new customers even when people have already taken deliveries in the same appartment. .it shouldnt take the user to rate them on the app to resolve the issue

Today the milk was spoiled.. Initially i thought milk will be good as it is started by IIM professionals. their intention might be good.. but the delivery points they have, they deliver spoiled milk packets, date will be erased... If the company continues with such worst delivery people, it will remain as startup forever..

Review Content: Used the product. Although they claim that it is cow milk, I would differ. There are no indicat ions that we were served Cow Milk, except that the pouch label. Milk is pure white, the cream too is White. We also extracted Ghee, none of them seem to be from cow source. The quantity of cream that is generated after coo ling, itself indicates the total fat content. In contrast to their claim, we did not receive any kit to test th e milk. Tried for a trial period 5 days, now discontinued the services.

Review Content: I am a country delight consumer also use the app, their products are good no complaints but this review is regarding their constant reminders (automated calls, messages & also in app reminders) which is becoming increasingly annoying as from the 15th of every month you Start getting constant reminders & sms's regarding bill due for payment, I have opted for their monthly payment scheme but despite that I keep getting reminders from the 15th of every month. I get these reminder calls & messages everyday from the 15th of every month & at times 4 to 5 time in a day, it's now turning into a nuisance. Have even called up their call centre & informed them regarding the same & also expressed my displeasure on the above mentioned issue, despite their assurance I am still getting these calls & messages. Country Delight please take note, if this continues would be forced to discontinue your services.

Review Content: Intended to clarify a few queries before subscribing but could not find any option to do so since the customer service is pathetic. No one ever picks up a call at customer service even when you are a new intended subscriber and bringing in sales. I wonder if its so pathetic while taking new subscribers and orders how bad will it be to take complaints or orders later. Will only make use of the service when COD service is offered in absence of which customers are left stranded in case of any frauds or complaints at the part of seller.

Review Content: Quality of milk has improved again, last month it was quite low as compared to milk delivered in July. Sometime it's problem with delivery guys, may be you need to hire serious people and provide proper trainings. Also would be great if people can choose delivery slot and can track delivery guy live on map.

Review Content: The country delight app is really easy and convenient to use for scheduling the delivery of milk. The best thing about the app is that u can change the schedule/quantity for the next day at late evening of the previous day and it also offers discount on recharging ur wallet with available online recharge packs. Further, the quality of the milk and other milk products are far better than amul and mother diary. U should definitely give it a try to know the difference. The taste is so pure and natural. Just one suggestion from my side. Though u have already included dahi and paneer as well in ur products but try to also include products like buttermilk, plain chaanch, tadka chaanch, mishti doi etc as well at the earliest as i still get these products from mother diary and would love to buy it from u guys once they are available. Keep up the good work!!

Review Content: At first the quality of milk was OK but later on it decreased a lot. The milk is too creamy and there is no option to order toned milk. The curd is horrible. Moreover the curd is too sweet with no sourness. It had also not been curdled appropriately, no one could eat it. The delivery service is also not satisfactory.Whenever I order 2 packets he brings only one.. Highly dissatisfied.

Review Content: Very poor service. I had to complaint 3 times in 6 days. They're delivering testing kit since 2 days and not milk. The app also doesn't work properly. No feedbacks are being taken seriously. In comparison to other milk providers, CD is just PAY MORE for MORE TROUBLE, nothing else. After all the hassle, they have now resolved the issues I had. Milk is good and the delivery is on time now. One thing I would like them to change is the use of plastic bags for keeping the milk packet. It would be great if you guys use cloth bags instead which can be provided one to each customer just to be environment friendly.

I called their customer care to atleast take the money. They delivered 1 ltr next day and again nothing for next two weeks. Than gave a bill of rs.265 instead of rs.212 as 1 ltr was free with 4 ltrs of milk. The best part is their helpline no. Always come s busy When I call from my registered no. When I call from another no. as a new customer they pick it up and d isconnect it when I tell them to clarify payment issues. Review Content: Best milk my family had in decades. The taste itself confirms the purity. Both the cow and buff
alo milk are good. The cream also tastes yummy. Using the milk test kit was easy and fun. I had given the firs
t order just to check the quality and it turned out to be the best. Otherwise market is just full of adulterate
d milk wether fresh or packaged. This is unadulterated fresh milk. Best wishes to country delight. I hope they
maintain their quality always. I have told all my relatives and friends to go for it immediately.

Review Content: I have been a regular customer for the last three years. I've had very few issues with the deli
very and was surprised see the bad reviews. Pros: the milk is very good - real cow's milk. The delivery at leas
t in my society is very prompt. I get an Sms if the person is late. And on the rare occasions when the milk spl
its on boiling, I've contacted the office and they have never billed me for that date. Cons: yes, the customer

no. lies unattended. So I call up the mobile no given by the delivery boy.

Review Content: When my milk delivery was not happening as per the schedule fed in to the app, I called custome r care to enquire why. Instead of admitting an error in the app or at the delivery end , he proceeded to blame me for not knowing how to use the app properly. He went on to say that the company has a customer base of 2000+ people and no one has encountered any problems. But clearly reviews on Google play store indicate otherwise! I have cancelled my subscription due to this unprofessional behavior of the executive

Review Content: I subscribed to the milk about a month back and the delivery is very inconsistent. The deliver y person many a times keeps milk outside the main gate without even ringing bell whereas I live on second floor . Half the time delivery of milk is too late. I end up calling customer care like thrice a week but no resoluti on yet. I have almost made up my mind to discontinue the service. Country fresh team - Please let me know if yo u are able to provide a consistent resolution, else no point pissing your customers
